

A stylized lighthouse graphic on the left side of the slide. The lighthouse is composed of several horizontal bands of color: a dark blue top section, an orange band, a red band, a purple band, and a blue band. The top section has a sunburst effect with rays emanating from it. The lighthouse is positioned on the left side of the slide, with its base extending towards the bottom left.

Toplo, Bloc & Spec

A Graphic Layer for the Present and Future
